

### **Richard C. Palermo High Impact Award**

This award was created and presented to Dick Palermo on September 21, 2006. It is in his memory that a resident is honored for their significant contributions to one or more community organizations. Dick was a member of the Livonia community for about 12 years. In that brief time, he helped several organizations accomplish great things. Dick played a key role in helping Freedom Point at Vitale Park to be developed as it is today. He also was pivotal in getting St. Matthew Church built. Later, he worked with leaders and students at Livonia School District to help create opportunities for young people to experience authentic problem solving and life changing educational experiences.

A recipient of the Richard C. Palermo High Impact Award will have had a profound impact on the organization(s) they serve and, as a result, the entire Livonia Community. His or her enthusiasm and passion for their organization(s) will be evident in the way that the group is moved forward. This person is a "doer" with success as a result.

### **Lifetime Achievement Award**

This is an award which honors a resident who has provided many years of dedicated service to the community of Livonia. The recipient will have been a part of one or more volunteer organizations or activities and given a considerable amount of time and energy through those years. The Lifetime Achievement Award is a way of celebrating the commitment that our citizens have made to incorporating community service as a major focus in their lives.

### **Youth Community Service Award**

This award is presented to a resident under the age of 21 who has demonstrated a passion for volunteerism. The recipient will have participated in a considerable amount of service to the community over the past two to four years. The commitment may have been made through one or more organizations for either the short or long term. This celebrates all of the efforts that our young people make for the community and highlights the organizations with which they are involved by recognizing the strengths of a particular individual.
